A world designed to last

Technip Energies in Lyon

A flexible and technology focused partner for your projects

TECHNIP ENERGIES

A center of excellence

Technip Energies Lyon offers unique process engineering and management expertise for the development of your projects.

Recognized expertise worldwide with extensive market position

- Polymers
- Chemicals and petrochemicals
- Sustainable chemistry (biochemicals, biofuels, circular economy)
- Carbon-free hydrogen
- Life sciences
- Refining
- Gas terminal & underground storage

We serve the worldwide market, sharing the same methods, processes and tools with our operating centers throughout the globe. Our autonomous approach to tailoring projects gives us the flexibility to adapt our global methods to match your specific needs.

Broad capabilities

- Full EPsCm/EPC
- Process design, conceptual and FEED offering
- Process groups dedicated to various technology fields:
  - Biochemicals
  - Renewable fuels and energies
  - Recycling plastic
  - Polyolefins
  - Chemicals and petrochemicals
  - Vinyls chain (chlorine/EDC/VCM/PVC)
  - Life sciences
  - Logistic and industrial organization
- Simulation tools: ASPEN, HYSIS, PRO II
- Digital offering (modeling, digital twins, integrated tools, 3D laser survey)

Skilled workforce

+500
employees

+130
process engineers

1
million engineering hours per year

MEMBER OF

IAR

axelera

A leading engineering firm in France with the capacity to operate worldwide

We are the reference engineering company in France for industrial projects with high process content. Our diligent team is experienced in process development and all the engineering disciplines required to deliver a project in full autonomy.

We seek long-term relationships with our clients through a wide range of collaborative schemes adapted to their needs.

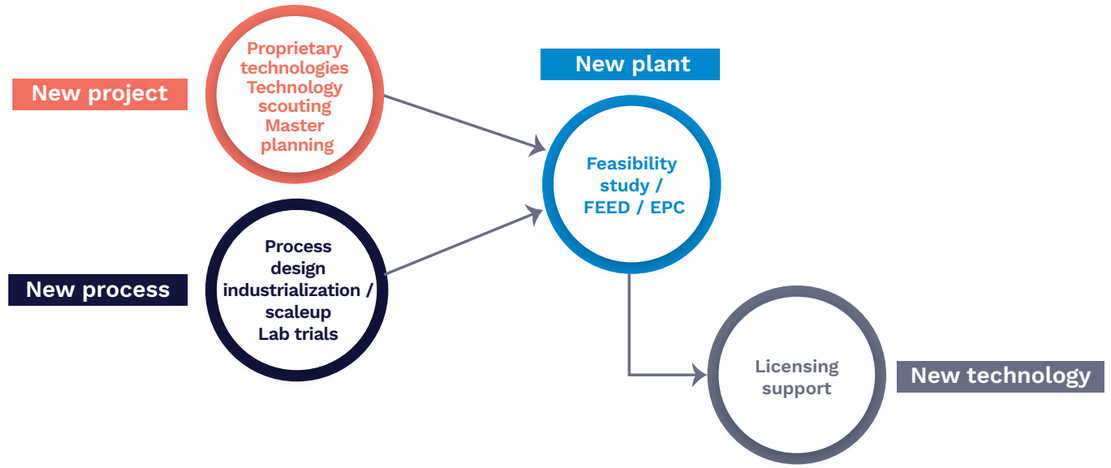

We provide process design expertise throughout the world with the support of our engineering centers located in more than 48 countries. Flexible, technology oriented and worldwide, we are the added value partner for the success of your project.
